The Newnham Biological Sciences Prize 2018-19

The Newnham College Science Prizes, are open to all **girls currently in Year 12** (Lower Sixth) at a UK school. The prize may be of particular interest to those studying Biology, Chemistry, Physics, or Mathematics, but we welcome entries from interested students studying any combination of subjects.

Entrants are invited to submit a response to any **one** of the questions overleaf. Submissions should comply with the following:

- 5 A4 sides maximum including all figures, diagrams, tables and bibliography
- 12 point font minimum
- 2 cm margins minimum
- 2500 words max.

All sources must be appropriately acknowledged and cited, and a bibliography, including websites consulted, should be included. Up to **five** entries may be submitted per school.

There are many angles from which to approach each topic. Good submissions will present a clear argument, be well illustrated where appropriate, and give specific examples or cases where possible.

Each of the Newnham Essay Prizes has a first prize of £400, a second prize of £200, and third prize of £100.

Entrants should upload their submissions to the webform, found here: <http://www.newn.cam.ac.uk/admissions/undergraduates/newnham-essay-prizes/>

The **cover sheet** should also be uploaded to this webform. Please ensure that a school/college representative has completed the appropriate section. Entries will not be valid without this information

The deadline for receipt is **12pm on Friday 8th March 2019**. For any queries not answered here, please contact Sophie Parry (Schools Liaison & Outreach Officer) by email at slo@newn.cam.ac.uk or by telephone on 01223 330471.

The Newnham Biological Sciences Prize Questions: 2018-19

1. Nominate a living woman biologist for a Nobel prize and justify your choice.
2. How do we benefit from the microorganisms that live within us?
3. Describe the organisation of the human genome. How has knowledge of the genome sequence assisted our understanding of this organisation?
