## **ACCESS FOR TALENT**

Gifts to the Access Fund enable us to reach out to talented women and encourage them to apply to Cambridge, regardless of their financial background. This year, our Schools Liaison Officer worked with 51 schools in events that took place outside of Newnham, seeing around 3,163 pupils. Newnham hosted around 2,000 pupils over roughly 50 separate visits and events.

## **STUDENT SUPPORT**

Living and studying in Cambridge today places huge financial pressure on some students and it is our mission to ensure that such challenges do not affect a student's ability to apply to Newnham, complete their studies and make the most of the opportunities available. Last year, we spent around £570,000 on bursaries and other financial grants.

## **WORLD CLASS FELLOWSHIP**

In order to maintain Newnham as a world class place of education for women, we must be able to attract and support outstanding researchers who create a stimulating academic experience and inspire their students to reach their full potential.

## **AREA OF GREATEST NEED**

Unrestricted gifts are directed to wherever the need is greatest, allowing us to seize opportunities and tackle unexpected challenges as they arise. For example, unrestricted gifts may go towards the shortfall we must find each year to cover annual teaching costs or towards maintaining our beautiful buildings.

If you have given us your telephone numbers, we will assume that you are happy to take a call from Newnham even if you are registered with TPS, unless you advise us otherwise.

NEWNHAM COLLEGE

*“Bursaries remove financial worries for my family and enrich my time at Newnham immensely. Your donations aid me through my studies, enabling me to do what I love every day.”*

Megan, English
