

## Newnham Associates Summer 2020 Careers Programme A career in Data Science; Data Engineering; Technology

Want to find out more about a career in the above areas?

Hear about the interesting and varied career paths of Newnhamites and those who work with them have walked?

Like to ask a fellow Newnhamite those burning questions such as 'What is Data Science? What is Data Engineering? How is this interesting in insurance? What is building a Tech platform like when working with both programmers and end users? and many more.

Have the chance to discuss your CV and get prepared with a mock interview?

Come and join us to find out more!

**Newnhamite undergrads and postgrads are invited to join us for a Data Science; Data Engineering; Technology Q&A Zoom on Friday 10 July 2020 at 16:00.**

To book your place, please register at:

	<p><b>Angela</b> studied History at Newnham and is now Global Head of Operations at Innovisk Capital Partners which is an insurtech company expecting to act as a disrupter in the insurance industry <a href="https://www.innovisk.com">https://www.innovisk.com</a>.</p>
	<p><b>Laura</b> studied MML at Newnham from 2004-2008.</p> <p>When I graduated I trained to be a Primary School teacher through the leadership development programme Teach First. I taught languages at Primary and Early Years level for 3 years before moving into the charity sector. I spent 6 years working with Teach First in a range of roles including teacher training and coaching, and programme design.</p> <p>After working at Teach First, I worked at the think tank and membership organisation The Royal Society of Arts. Becoming a mum prompted a move back to education and now I work as Education Lead at an ed tech startup in the Early Years sector called Tiney.</p>
	<p><b>Assi, Eleanor, Gigi, Lily and Saloni</b> all work with Angela at Innovisk. They are far more recent graduates than Angela, although not from Newnham; they are the real experts in this career field and are looking forward to sharing their journey with you and details of what their specific area of work entails.</p>
